

## Wzmacniacz sygnału, seria BAE (BAE00H2) - Balluff

**Numer artykułu SKU:**  
**OC-BALLUFF007426**

Numer artykułu producenta:  
-----

Tylko na zamówienie

**BALLUFF**

## OPIS PRODUKTU

## Charakterystyka

|                                                         |                                                                         |
|---------------------------------------------------------|-------------------------------------------------------------------------|
| BAE00H2 (BAE LX-VS-SI030) - Spotlights - List price USA | 748.86 USD - Connection: Cable with connector, M12x1-Male, 4-pin, 0.3 m |
| Version                                                 | Spotlight                                                               |
| Dimension                                               | Ø 30 x 64 mm                                                            |
| Rated operating voltage Ue DC                           | 24 V                                                                    |
| Current draw max.                                       | 170 mA                                                                  |
| Operating mode                                          | Normal (continuous operation)                                           |
| Digital inputs                                          | Trigger                                                                 |
| Material                                                | 1.4301 stainless steel, Brass, Glass                                    |
| Illumination area                                       | Ø 27 mm                                                                 |
| Light type                                              | LED Infrared                                                            |
| Wave length                                             | 875 nm                                                                  |
| Beam angle                                              | 17 °                                                                    |
| Ambient temperature                                     | -10...50 °C                                                             |
| Approval/Conformity                                     | CE, UKCA, WEEE                                                          |
| IP rating                                               | IP67 - BALLUFF USA                                                      |
